DESIGN & ENGINEERING

Our engineering team works alongside your project staff to develop practical, cost-effective solutions from concept to production-ready documentation.

- CAD design and technical drawings
- Prototype development
- Design for manufacturability review
- Value engineering consultation

FABRICATION

From small, simple parts to large, complex weldments - our skilled fabricators handle a broad range of metal work with exacting precision.

- Cutting, bending, and forming
- Welding (MIG, TIG, Stick)
- Structural steel & aluminum fabrication
- OEM & plant operations support

SANDBLASTING

Scaleable abrasive blasting removes rust, mill scale, and old coatings. Preparing surfaces per coating manufacturer's specifications, for maximum adhesion and long term coating performance.

- New product surface prep
- Refinishing & restoration
- Rust and corrosion removal
- Various blast profiles available

PAINTING & COATINGS

High-performance architectural and industrial coatings applied to manufacturer's specifications, by specialized finishing technicians — protecting your investment and delivering a superior final appearance.

- Architectural & decorative finishes
- Refinishing of various metal elements
- Color-matching capabilities
- Industrial-grade liquid coatings

Why Duroweld

When your project demands **precision, durability, and craftsmanship**, Duroweld MetalWorks is the partner that delivers — from initial design through final finishing, under one roof in the greater Chicagoland area.

Reach us at sales@duroweldmetalworks.com

OUR PROMISE

END-TO-END CAPABILITY

Duroweld is a true single-source solution. Design, engineering, fabrication, sandblasting, and painting are all handled in-house - meaning fewer handoffs, tighter tolerances, and faster turnaround for your project.

PUBLIC & PRIVATE

PROJECT EXPERTISE

From community identifier monuments to architectural canopies to fixtures and custom metal elements, our portfolio reflects decades of experience serving municipal, architectural, and construction clients across the Chicagoland area and beyond.

BUILT FOR INDUSTRY

OEM & INDUSTRIAL

We supply fabrications for plant operations nationwide. Whether it's a mid-volume component run or a bespoke weldment, our team meets your specifications with consistency and care.

SURFACE EXCELLENCE

FINISHING & COATINGS

Specification-based sandblasting and high-performance coatings protect and beautify your fabrications for the long term. We also offer professional refinishing services to restore existing ornamental elements to like-new condition.

WHAT SETS US APART

SINGLE-SOURCE SOLUTION

Design through delivery — all under one roof, eliminating coordination delays and quality gaps, which translates to compressed lead times and an on-schedule, high quality deliverable to the customer.

ENGINEERING SUPPORT

Our design and engineering team helps you solve complex fabrication challenges before they become costly problems.

PROVEN TRACK RECORD

A vast portfolio of completed projects for established customers across architectural, municipal, and manufacturing sectors speaks for itself.
